SECTION 1: IDENTIFICATION OF SUBSTANCE/PREPARATION & COMPANY

1.1 Product Identifier

Product/Material: BIRD BRAND WHITE SPIRIT BS 245
Reach Registration Name: Hydrocarbons, C9-C12, n-alkanes, isoalkanes, cyclics, aromatics (2-25%).
Reach registration No: 01-2119458049-33
Pure Substance/mixture: Substance

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses: A highly refined solvent suitable for general degreasing purposes, brush cleaning and paint thinning. Manufacture of substance, Distribution of substance, Formulation & (re)packing of substances and mixtures, Uses in Coatings, Use in Cleaning Agents, Lubricant, Metalworking fluid, Use as a fuel, Lamp oil, Barbecue lighter, Functional Fluids, Road and construction applications, Laboratory activities, Rubber production and processing, Water treatment chemical, Polymer processing.

1.3 Details of the supplier of the safety data sheet

Supplier: R K & J Jones Limited
Address: Southery Road, Feltwell
Thetford, Norfolk, IP26 4EH, UK,
Telephone: 01842 828101
Fax: 01842 828171
Emergency Number: 01223 968282
E-mail Address: sales@birdbrand.co.uk

SECTION 2: HAZARDS IDENTIFICATION

2.1. Classification of the substance or mixture

REGULATION (EC) No 1272/2008
For the full text of the H-Statements mentioned in this Section, see Section 2.2.

Classification
Flammable liquids - Category 3 – (H226)
Aspiration toxicity - Category 1 – (H304)
Specific target organ systemic toxicity (single exposure) - Category 3 – (H336)
Specific target organ toxicity - repeated exposure - Category 1 - (H372)
Chronic aquatic toxicity - Category 2 – (H411)

DIRECTIVE 67/548/EEC or 1999/45/EC
For the full text of the R-phrases mentioned in this Section, see Section 16

Symbol(s)
Xn - Harmful
N - Dangerous for the environment
**Classification**
R10 – Xn; 48/20 –Xn; R65 - R66 - R67 - N; R51-53

2.2. Label elements

Labelled according to: REGULATION (EC) No 1272/2008

Contains Hydrocarbons, C9-C12, n-alkanes, isoalkanes, cyclics, aromatics (2-25%)

EC-No 919-446-0

**Hazard pictograms**

[Signal Word] DANGER

**Hazard Statements**

H226 - Flammable liquid and vapour
H304 - May be fatal if swallowed and enters airways
H336 - May cause drowsiness or dizziness
H372 - Causes damage to organs through prolonged or repeated exposure
H411 - Toxic to aquatic life with long lasting effects

**Precautionary Statements**

P210 - Keep away from heat/sparks/open flames/hot surfaces. - No smoking
P370 + P378 - In case of fire: Use dry sand, dry chemical or alcohol-resistant foam for extinction
P260 - Do not breathe dust/ fume/ gas/ mist/ vapours/ spray
P301 + P310 - IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician
P331 - Do NOT induce vomiting
P273 - Avoid release to the environment

**Supplemental Hazard Statements**

EUH066 - Repeated exposure may cause skin dryness or cracking

2.3. Other hazards

Physical-Chemical Properties  Vapours may form explosive mixtures with air.
Vapours are heavier than air and may spread near ground level to sources of ignition.

Properties Affecting Health Vapours inhaled in strong concentration have a narcotic effect on the central nervous system.

**SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS**

3.1. Substance

Chemical nature A complex and variable combination of paraffinic, cyclic and aromatic hydrocarbons having a carbon number range predominantly of C9 to C12 and boiling in the range of approximately 135°C to 220°C.
The aromatic content is between 2% and 25%.

### SECTION 4: FIRST AID MEASURES

#### 4.1. Description of first-aid measures

**General advice**

IN CASE OF SERIOUS OR PERSISTENT CONDITIONS, CALL A DOCTOR OR EMERGENCY MEDICAL CARE.

**Eye contact**

Rinse thoroughly with plenty of water, also under the eyelids. Keep eye wide open while rinsing.

**Skin contact**

Remove contaminated clothing and shoes. Wash off with soap and water.

**Inhalation**

In case of exposure to intense concentrations of vapours, fumes or spray, transport the person away from the contaminated zone, keep warm and allow to rest.

**Ingestion**

If swallowed, do not induce vomiting - seek medical advice. Risk of product entering the lungs on vomiting after ingestion. In this case, the casualty should be sent immediately to hospital.

**Protection of First-Aiders**

Use personal protective equipment.

#### 4.2. Most important symptoms and effects, both acute and delayed

**Eye contact**

Burning feeling and temporary redness.

**Skin contact**

Prolonged or repeated contact may dry skin and cause irritation.

**Inhalation**

Vapours inhaled in strong concentration have a narcotic effect on the central nervous system. Irritation of the respiratory tract due to excess fume, Causes headache, drowsiness or other effects to the central nervous system, loss of consciousness.
Ingestion If swallowed accidentally, the product may enter the lungs due to its low viscosity and lead to the rapid development of very serious pulmonary lesions (medical survey during 48 hours). Nausea, Vomiting, Abdominal pain.

4.3. Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician Treat symptomatically.

SECTION 5: FIRE FIGHTING MEASURES

5.1. Extinguishing media

Suitable Extinguishing Media Foam. Dry powder. Carbon dioxide (CO2). Water spray.

Unsuitable Extinguishing Media Do not use a solid water stream as it may scatter and spread fire.

5.2. Special hazards arising from the substance or mixture

Special Hazard Incomplete combustion and thermolysis may produce gases of varying toxicity such as carbon monoxide, carbon dioxide, various hydrocarbons, aldehydes and soot. These may be highly dangerous if inhaled in confined spaces or at high concentration.

5.3. Advise for Fire-fighters

Special protective equipment for Fire-fighters In case of a large fire or in confined or poorly ventilated spaces, wear full fire resistant protective clothing and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Other information Cool containers / tanks with water spray. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1. Personal precautions, protective equipment and emergency procedures

General Information Use personal protective equipment. Evacuate non-essential personnel. Ensure adequate ventilation, especially in confined areas. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Do not touch or walk through spilled material.

6.2. Environmental precautions

General Information Prevent further leakage or spillage if safe to do so. Dike to collect large liquid spills. The product should not be allowed to enter drains, water courses or the soil. Local authorities should be advised if significant spillages cannot be contained.

6.3. Methods and materials for containment and cleaning up

Methods for cleaning up Use non-sparking hand tools and explosion proof electrical equipment. Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Following product recovery, flush area with water.

6.4. Reference to other sections
SECTION 7 : HANDLING AND STORAGE

7.1. Precautions for safe handling

Advice on safe handling  
For personal protection see section 8. Use only in well-ventilated areas. Do not breathe vapours or spray mist. Avoid contact with skin, eyes and clothing.

Technical measures  
Ensure adequate ventilation. 
Do not spray at high pressure (> 3 bar) . WHILE MOVING THE PRODUCT:. To avoid ignition of vapours by static electricity discharge, all metal parts of the equipment must be grounded. Do not allow splash loading and ensure that the product is poured slowly, particularly at the beginning of the operation.

Prevention of fire and explosion  
OPERATE ONLY ON COLD AND DEGASSED TANKS IN VENTILATED PREMISES (TO AVOID RISK OF EXPLOSION). 
Handle away from any source of ignition (open flame and sparks) and heat (hot manifolds or casings). Do not smoke. Use explosion proof electrical equipment. Take precautionary measures against static discharges. Do not use compressed air for filling, discharging or handling.  
Design installations (machinery and equipment) to prevent burning product from spreading (tanks, retention systems, interceptors (traps) in drainage systems).

Hygiene measures  
Ensure the application of strict rules of hygiene by the personnel exposed to the risk of contact with the product. 
When using, do not eat, drink or smoke. 
Regular cleaning of equipment, work area and clothing is recommended. Do not dry hands with rags that have been contaminated with product. Do not use abrasives, solvents or fuels. Wash hands before breaks and at the end of workday.

7.2. Conditions for safe storage, including any incompatibilities

Technical measures/Storage Conditions:  
Design the installations in order to avoid accidental emissions of product (due to seal breakage, for example) onto hot casings or electrical contacts. 
Storage installations should be designed with adequate bunds so as to prevent ground or water pollution in case of leaks or spills. Use explosion proof electrical equipment. Keep in a bunded area. Keep in a dry, cool and well-ventilated place. Keep away from open flames, hot surfaces and sources of ignition. Ground/bond containers, tanks and transfer/receiving equipment. Store at room temperature. Keep containers tightly closed and properly labelled.

Materials to Avoid  
Strong acids. Oxidizing agents.
SECTION 8 : EXPOSURE CONTROLS/PERSONAL PROTECTION

8.2. Exposure controls

Occupational Exposure Controls

Engineering Measures

When working in confined spaces (tanks, containers, etc.), ensure that there is a supply of air suitable for breathing and wear the recommended equipment. Apply technical measures to comply with the occupational exposure limits.

Personal Protective Equipment

General Information

Protective engineering solutions should be implemented and in use before personal protective equipment is considered. These recommendations apply to the product as supplied.
If the product is used in mixtures, it is recommended that you contact the appropriate protective equipment suppliers.

Respiratory protection
In the case of vapour formation use a respirator with filter model:.
Type A. In case of vapours and aerosol formation: Respirator with combination filter for vapour/particulate, Type A/P2. Warning! filters have a limited use duration.

Eye Protection
If splashes are likely to occur, wear:. Safety glasses with side-shields.

Skin and body protection
Wear suitable protective clothing. Protective shoes or boots.

Hand Protection
Hydrocarbon-proof gloves for aromatic hydrocarbons. If repeated and/or prolonged skin exposure to the substance is likely, then wear suitable gloves tested to EN374 and provide employee skin care programmes.

SECTION 10: STABILITY AND REACTIVITY

10.1. Reactivity
None under normal processing.

10.2. Chemical stability
Stability
Stable under recommended storage conditions.

10.3. Possibility of hazardous reactions
Hazardous Reactions
None under normal processing.

10.4. Conditions to Avoid
Conditions to Avoid
Heat, flames and sparks. Take precautionary measures against static discharges.

10.5. Incompatible Materials
Materials to Avoid
Strong acids. Oxidizing agents.

10.6. Hazardous Decomposition Products
Hazardous Decomposition Products
Incomplete combustion and thermolysis may produce gases of varying toxicity such as carbon monoxide, carbon dioxide, various hydrocarbons, aldehydes and soot.

SECTION 11: TOXICOLOGICAL INFORMATION

11.1. Information on toxicological effects
Acute toxicity Local effects, Product Information

Skin contact
Prolonged or repeated contact may dry skin and cause irritation.

Eye contact
This substance does not meet the EU criteria for classification. Burning feeling and temporary redness.

Inhalation
This substance does not meet the EU criteria for classification. Vapours inhaled in strong concentration have a narcotic effect on the central nervous system. Irritation of the respiratory tract due to excess fume, Causes headache, drowsiness or other effects to the central nervous system, loss of consciousness.

Ingestion
Symptoms : Nausea, Vomiting, Abdominal pain.
If swallowed accidentally, the product may enter the lungs due to its low viscosity and lead to the rapid development of very serious inhalation pulmonary lesions (medical survey during 48 hours).

Acute toxicity Component Information
Chemical Name

LD50 Oral  LD50 Dermal  LC50 Inhalation

LD50 > 15000 mg/kg bw (rat – OECD 401)  
LD50 (24h) > 3400 mg/kg bw (rat)

LC50 (4h) > 13100mg/m3 (vapour) (rat – OECD 403)

**Sensitization**

Sensitization  Not classified as a sensitizer.

**Specific Effects**

Carcinogenicity  This product is not classified carcinogenic.
Mutagenicity  The mutagenic potential of the substance has been extensively studied in a range of in-vivo and in-vitro assays.
Germ Cell Mutagenicity  Genetic toxicity: negative.
Reproductive toxicity  No information available.
Developmental Toxicity  Results of guideline developmental toxicity studies on the substance and OECD developmental toxicity screening studies showed no evidence of developmental toxicity in rats.

**Repeated Dose Toxicity**

Subchronic toxicity  No information available.

Target Organ Effects (STOT)  Central nervous system.

Specific target organ systemic toxicity (single exposure)  Vapours may cause drowsiness and dizziness.

Specific target organ systemic toxicity (repeated exposure)  Causes damage to organs through prolonged or repeated exposure.

Aspiration toxicity  The fluid can enter the lungs and cause damage (chemical pneumonitis, potentially fatal).

**Other information**

Other adverse effects  Frequent or prolonged skin contact destroys the lipoacid cutaneous layer and may cause dermatitis.

Precautionary Statements  Dispose of contents/container to an approved waste disposal plant.

**SECTION 12 : ECOLOGICAL INFORMATION**

**12.1. Toxicity**

Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

**Acute aquatic toxicity**

12.3. Bioaccumulative potential

Product Information
Measured experimental data on hydrocarbon UVCB substances are not meaningful, since each of the constituents is likely to behave differently.

logPow Component Information
Not applicable

12.4. Mobility in Soil

Soil
Substance is a UVCB. Standard tests for this endpoint are not appropriate.

12.5. Results of PBT and vPvB assessment

PBT and vPvB assessment
This substance is considered not to be PBT and vPvB.

12.6. Other adverse effects

General Information
No information available.

SECTION 13: DISPOSAL CONSIDERATIONS

13.1. Waste treatment methods

Waste from Residues/Unused Products
Dispose of in accordance with the European Directives on waste and hazardous waste.

Contaminated packaging
Empty containers may contain flammable or explosive vapours. Empty containers should be taken to an approved waste handling site for recycling or disposal.

EWC Waste Disposal No.
According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Waste codes should be assigned by the user based on the application for which the product was used.

### SECTION 15: REGULATORY INFORMATION

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

**European Union**

*REACH*
The EC substance definition is included in the CAS related number description for global inventory entries.

**Other regulations**
- Directive 1999/13/EC on the limitation of emissions of volatile organic compounds
- Directive 2004/42/EC on the limitation of emissions of volatile organic compounds
- Take note of Directive 98/24/EC on the protection of the health and safety of workers from the risks related to chemical agents at work

**Related CAS**
64742-82-1

**International Inventories**
The substance is listed or exempted from listing in the following inventories:
- Europe (EINECS/ELINCS/NLP)
- U.S.A. (TSCA)
- Canada (DSL/NDSL)
- Australia (AICS)
- Korea (KECL)
- China (IECSC)
- Japan (ENCS)
- Philippines (PICCS)
- New Zealand (NZIoC)

**15.2. Chemical Safety Assessment**
A Chemical Safety Assessment has been carried out for this substance

**SECTION 16 : OTHER HEALTH AND SAFETY INFORMATION**

**Full text of R-phrases referred to under sections 2 and 3**
- R10 - Flammable
- R11 - Highly flammable
- R36 - Irritating to eyes
- R37 - Irritating to respiratory system
- R38 - Irritating to skin
- R65 - Harmful: may cause lung damage if swallowed
- R66 - Repeated exposure may cause skin dryness or cracking
- R67 - Vapours may cause drowsiness and dizziness
- R20/21 - Harmful by inhalation and in contact with skin
- R48/20 - Harmful: danger of serious damage to health by prolonged exposure through inhalation
- R51/53 - Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment

**Full text of H-Statements referred to under section 2 and 3**
- H226 - Flammable liquid and vapour
- H304 - May be fatal if swallowed and enters airways
- H336 - May cause drowsiness or dizziness
- H372 - Causes damage to organs through prolonged or repeated exposure if inhaled
- H411 - Toxic to aquatic life with long lasting effects
- EUH066 - Repeated exposure may cause skin dryness or cracking

**Abbreviations, acronyms**
- bw = body weight
- bw/day = body weight/day

**Legend Section 8**
+ Sensitizer
** Hazard Designation
< C: Carcinogen
M: Mutagen
R: Toxic to reproduction

This safety data sheet serves to complete but not to replace the technical product sheets. The information contained herein is given in good faith and is accurate to the best of knowledge at the date indicated above. It is understood by the user that any use of the product for purposes other than those for which it was designed entails potential risk. The information given herein in no way dispenses the user from knowing and applying all provisions regulating his activity. The user bears sole liability for the precautions required when using the product. The regulatory texts indicated herein are intended to aid the user to fulfil his obligations. This list is not to be considered complete and exhaustive. It is the user’s responsibility to ensure that he is subject to no other obligations than those mentioned.

Revision Date: 2014-09-04 – 54443 – v5
This safety data sheet complies with the requirements of Regulation (EC) No 1907/2006
